CATALOGUE FOR 1901.

NOVELTIES IN PLANTS

FOR 1901.

It gives us great pleasure in offering to our customers some **sterling novelties** in plants.

Begonia Double Vernon Type.

Offered for the first time on this coast, flowering all the year round in three colors, red, white and pink. Young plants will be ready March 1st; price 25 cts. each for small plants ; 50 cts. for large plants, all ready to bloom.

CYPERUS GRANDIS.

Cyperus Grandis.

New umbrella plant. The greatest novelty ever introduced. The plants are very fast growers, robust, but exceedingly graceful, growing well under almost any condition. We do not know of a more satisfactory house plant and everybody admires it. We offer small plants at 25 cents ; large plants, 50 cents to \$1.00.

Blue Cowslip.

A hardy garden primrose, of the richest velvety blue color, a most striking novelty, offered for the first time. It is a genuine surprise in color and the flowers are large and freely produced. 25 cents each.

Geranium "Mars"

A new dwarf Geranium, excellent as a pot plant and exquisite for bedding. It produces more flowers than any other Geranium we know of, color a light pleasing shade of salmon, single, very dwarf and compact in growth. 25 cents each.

New Canna "Salmon King."

This Canna originated in California; its growth is dwarf, blooms constantly, the flowers are very large, of a rich salmon red. It is by far the finest variety we have ever known. Stock limited. 50 cents per root.

Epacris hybrida.

This beautiful evergreen shrub resembles to some extent a Heather. It is extensively grown in Europe as a greenhouse plant, but it is hardy in San Francisco. In colder climate it will serve as a house plant. It flowers the greater part of the year, and the flowers are very graceful and of a very bright red color. An entirely new plant on this Coast. Imported plants, 50 cents each, in pots.

Ericas (Heather).

Of these exquisite evergreen flowering shrubs we have imported six new varieties, entirely distinct from the old kinds we have cultivated for years here, and they were admired by all who visited our nurseries during the past year. They do not stand severe frost, but are considered hardy in the vicinity of San Francisco; in cold localities they will have to be grown in the house. For three to four months they are literally covered with their graceful flowers, varying from pure white to dark pink. Strong imported plants, 50 cents each; large specimens, 75 cents to \$1.00; in pots.

Variegated Umbrella plants.

This is a sport from the old-fashioned Umbrella plant, and is beautifully variegated, white and green; sometimes almost entirely white. It is a very rare plant, and our stock is limited. Nice young plants, 50 cents each; ready April 1st.

New Fuchsia "Aberdeen."

This is something you never heard of before—an entirely pure white flower. Heretofore we had fuchsias with white tubes and colored corollas, and again, with red tubes and white corollas; but the "**Aberdeen**" has a white tube, white sepals, and a white corolla; that is to say, the entire flower is white, not quite as large as the older varieties, but much more graceful. It is a gem. Our stock of this fuchsia is very limited, and we cannot promise to fill any order before May 1st. Price: small plant, 25 cents each; larger plants, 50 cents.

New Iris "Azurea."

We have procured this new Iris by accident, and do not know where it originally came from, but suppose it came from Japan. The flowers are of a very rich dark blue, and has flowered with us twice a year, and each time for two or three months, which is something extraordinary. Price, strong roots, 25 cents each.

New Lobelia "Splendens."

We have in this a most remarkable very dark blue flower, with a large, well-defined pure white center. It attracts immediate attention; is of dwarf, compact growth, and is far ahead of any lobelia in cultivation heretofore. Price, 10 cents each; \$1.00 per doz.

2 New Carnations.

Olympia. Extraordinary in size; form perfect; color, glossy snow white, very delicately penciled scarlet. 25 cents each. Ready March 1st.

Mrs. Thomas W. Lawson: The celebrated carnation for which Mr. Lawson of Boston paid \$30,000. This carnation is very large, and of an exquisite shade of dark rose. 25 cents each, Ready March 1st.

New Rose, "Liberty."

The best Hybrid Tea Rose introduced for many years. It is a profuse and constant bloomer. Color, a rich very bright velvety crimson; a most desirable color in Tea Roses. A good grower, and will give general satisfaction. Small plants, ready March 1st, 25 cents each; strong plants, 50 cents each.

NOVELTIES IN PLANTS

OF 1900.

Begonia Vernon, Scarlet.

Of a dwarf, bushy habit, flowers very bright scarlet, beautiful for the house, as well as for bedding in summer. 15 cents, 25 cents and 50 cents each, according to size

Begonia Pictaviense.

The grandest of all winter flowering Begonias, foliage large and beautiful, truss of rose colored flowers immense and lasting for months. 25 to 50 cents.

Begonia Monsieur de Lesseps.

Large, showy leaves, immense trusses of cream-colored flowers, splendid for winter flowering. 15 and 25 cents.

Carex Variegata.

An exceedingly pretty, grass-like plant, of easy culture, graceful habit, and finely variegated; good plants. 15 cents.

Edelweiss.

A most interesting Alpine plant, from the Swiss Mountains, familiar to all who have visited the Alps. It thrives well here and has bloomed with us for months. Very hardy. 25 cents.

Chrysanthemum Maximum.

A very hardy plant, which was admired a great deal last summer. The flowers are white, similar to a Marguerite, but of immense size, produced in great profusion on long, stiff stems. 10 cents each.

Geranium, Mad. Hoste.

Of all the new Geraniums this is the most striking combination of colors—rich crimson lake at the edge, shading to rosy carmine towards the center, with large white blotches in the center. Small plants, 15 cents each; large plants, 25 cents.

The "Living Rock,"

from Mexico; a rare and marvelous plant; will live and bloom for years without water, and will not suffer from extreme heat or extreme cold. Its variegated flowers are very attractive and interesting. 25 to 50 cents, according to size.

Geranium, Carnot.

The very finest of all double Geraniums; compact dwarf growth; a fine pot plant. Ground color white; large center of bright red. Very beautiful. 15 cents.

New Fuchsia "Bruant."

An immense double flower of the richest violet-blue, heavily striped bright rose; a most robust grower and free bloomer; a very decided new combination of colors. 15 cents each.

Geranium, Doctor Nansen.

The best single pure white ever offered. Fine habit; constant bloomer. 15 cents each, young plants, by mail.

Jasmine, Grand Duke.

New on this Coast, producing double white flowers, very deliciously fragrant, in great profusion. 25 cents each.

Jasmine, Maid of Orleans.

Large double white flowers, blooming profusely all summer in a warm position. 25 cents.

HOUSE PLANTS.

Azalea Indica. The finest winter flowering plant, in many colors, single and double; will also thrive in the open air, but will only stand light frost. Imported plants, full of buds. \$1.00 to \$1.50 each.

FLOWER SEEDS.

NOVELTIES OF SPECIAL MERIT.

HUNNEMANNIA FUMARIÆFOLIA. (*Golden Poppy*.)

Considered in very cold climate an annual, but no doubt it will prove a perennial in California. The flowers are of rich golden yellow, produced in great abundance throughout Summer; long stems, fine for cutting; a most desirable acquisition. 10 cents per package.

CENTAUREA IMPERIALIS (SWEET SULTAN) IMPROVED.

New large flowering hybrids of the sweet-scented Centaureas. Form large, many-branched bushes of 3 to 4 feet in height, and produce an abundance of bloom from July until the frost kills them. The beautiful large flowers vary in all shades of white, lilac, rosy and purple. Undoubtedly one of the finest introductions of this season. Pkt., 10 cents.

CHRYSANTHEMUM CARINATUM CHAMÆLEON.

Large-flowered new variety of this showy annual, so valuable for its yield of cut flowers. The ground color of the flowers or ray florets is a light coppery-bronze with a bright purplish-crimson zone during the first few days, the blackish purple disk being surrounded by a golden yellow circle; a few days later the coppery-bronze changes into a clear isabel. These four distinct colors on one flower, combined with the different colored flowers on one plant, produce a beautiful contrast. Exceedingly effective and of great value for cutting purposes. Pkt., 10 cents.

Best Fertilizer.

Genuine Pulverized Sheep Manure.

The richest and best for all purposes. Can be mixed up dry with the soil at the rate of four pounds to one wheelbarrow of soil, or can be dissolved in water at the rate of one teacupful to one gallon of water, to be applied to growing plants once a week. We know of nothing better. For grassplots and lawns use about three pounds to ten feet square, and water immediately after. For roses and other plants, remove a little of the top soil around each plant, apply a teacupful of the manure, cover up and water. Price: 5 cents per pound; 6 pounds for 25 cents; per 100 pounds, \$3.00.

PAOLI GYPSUM FERTILIZER.

A Wonderful Stimulant for Plants, Lawns and Trees.

One teaspoonful to a gallon of water applied once a week to growing plants is most beneficial. In potting or re-potting plants, mix about one-half teaspoonful with the soil, for a 6-inch pot. For lawn dressing, use at the rate of one pound to 50 square feet (5x10). Price of 3-pound bags, 25 cents; of 10-pound bags, 50 cents; of 50-pound bags, \$2.00. It destroys insects and alkalies.

Imported Garden Trowels.

Heavy Steel Trowels..... 50 cents each

Remedy Against Insects.

The Green Fly, Scale and other insect pests are very detrimental to plants. In our experience we find the "Sulphur Tobacco Soap" very effective. A solution of this soap at the rate of two ounces to one gallon of water will kill Green Fly and Mealy Bug outright, and will kill mildew and other fungus growth, without doing the least harm to the most tender growth. The proper method to apply the solution is by a syringe, or, when only a few plants need the application, the rubber sprinkler answers the purpose. The proper time to apply the solution is morning and evening.

Price of Sulphur Tobacco Soap, 60 cents per pound. By mail, 10 cents per pounds extra.

Price of Heavy Garden Syringes, \$1.50 to \$2.00 each, by freight or express.

Price of Patent Rubber Sprinkler, \$1.00 each. By mail, 15 cents additional.
